Description of Products or Services:

The Clapboard House has been turning houses into homes since 1979 with quality furniture, mostly American-Made, and priced to sell; custom draperies and bed coverings; and probably the regions best selection of accessories. We can help you decorate a room, or your entire home. The Appalachian Showcase, added in 2005, features the work of well over 60 artisans and craftsmen from throughout the region. You will be delighted with the pottery, wooden bowls and figurines, jewelry, music, books, photography, art, and more.
